## Annual reporting

### Introduction

The corona pandemic has been the cause of why Adom Give and Gain Foundation has not been able to execute projects for the last past years.

Our workshops, micro finances and donation projects for each one reach one has been put on hold due to the pandemic. Our important networking meetings have also been put on hold. Via de zoom we have been able to keep on communicating with our workers.

Despite these difficult circumstances, we have been able to execute projects. With excitement we present the results we have achieved.

#### Focusses:

- In January Adom Give and Gain adopted a village called Akyease in Nyinahin. We wanted to donate items such as, clothes, food, computers, school items, and more, but because some of our volunteers and workers got sick, we couldn't execute the project. The project was shift to January 2022. We were able to do the project and donate items to the village we have adopted in Akyease.
- A second donation was done April. This time we worked together with people from the Netherlands and in Ghana to make the project Community Care a success. As a new organization we have got the eyes of King Nana Amampene Boateng Twum II B Ed (Hons). We have been working together with him and his people to execute the project Community Care and each one reach one.
- Shipment of hardware and furniture to Ghana for de IT lab projects. Thanks to Tata communication for the huge donation with hardware and furniture to be shipped to Ghana. Together we had a 40 feet container of hardware and furniture shipped to Ghana. This has taken a lot of our finances, but we believe it will be of great value to the junior high schools in the villages in Ghana.
- Renovating of the schools and building IT labs in Akyease village
- Donation hardware and furniture to the village Dompouse. We believe in education and have donated these hardware and furniture to build up the schools in Dompouse.

Adom Give and Gain foundation (AGAG) is an NGO with the objective to support underprivileged African youth and women through various activities. Our motto — "Each one reach one" — reflects the belief that anyone can be a philanthropist and give back to their community, regardless of means.

- New donors have seen the good work we are doing and we welcomed them to partner with us for the IT projects.
- Micro finance project will get more attention than it did. We will need more donors for that project.
- We have welcomed new volunteers. We cater for some of their expenses
- We are preparing for our IT projects in 2023 and are looking forward for new donors to join us and help impact the lives of young people and women in Ghana
- Because of corona pandemic we are not able to register the company in Ghana yet. Some of the board members who went to Ghana for the registration of the organization got corona and because of that we were not able to do the registration and sign the papers. Due to that we were also not able to open a bank account for the organization Adom Give and Gain. It is required to be an organization before you can open a bank account number for the organization. Due to that, the board agreed that Benedicta Nkansah (who was the only board member without corona) will open a joint account to put all the donation money in the account for the time being. The money will be used for the projects in Ghana. The board will look for the right and healthy moments to register the organization in Ghana and transfer the donated money to the bank account of the organization Adom Give and Gain.
