Annual reporting 2024

Introduction

After the corona pandemic the donations has not been has been coming in compared to the years before the pandemic. Even though we haven't been able to recover fully, we have been able to execute projects that has helped some assemblies to achieve their goals and provide for their families.

Our IT trainings, workshops, micro finances, building of the toilets and schools in Akyease in Nyinahin, and donation projects for each one reach one is still on hol, because we don't have the needed donations to execute the projects. Our important networking meetings have also been put on hold. Via de zoom we have been able to keep on communicating with our workers.

Despite these difficult circumstances, we have been able to execute projects. With excitement we present the results we have achieved.

Focusses:

- From January till December 2024 because Adom Give and Gain doesn't have the full finances to execute the IT projects the organization has supported other IT projects by contributing for some students to have experience in IT companies. These Student has been able to accomplish their goals because of the support of Adom Give and Gain. We will continue to follow up with them and contribute to their growth in the year 2025.
- The work with Nana Amampene continues. During the first months of 2024 the collaboration was more intense than the last months of the year 2024. We are still working together with people from the Netherlands and in Ghana to make the project Community Care a success. As a new organization we have got the eyes of King Nana Amampene Boateng Twum II B Ed (Hons). We have been working together with him and his people to execute the project Community Care and each one reach one.

Adom Give and Gain foundation (AGAG) is an NGO with the objective to support underprivileged African youth and women through various activities. Our motto — "Each one reach one" — reflects the belief that anyone can be a philanthropist and give back to their community, regardless of means.

- Shipment of hardware and furniture to Ghana for the IT lab projects: In 2022 we were able to ship a lot of hardware and furniture to Ghana for the project IT lab in Akyease in Nyinahin schools, thanks to Tata communication for the huge donation with hardware and furniture to be shipped to Ghana. Together we had a 40 feet container of hardware and furniture shipped to Ghana. This took a lot of our finances, but we believe it has been of great value to the junior high schools in the villages in Ghana. In 2024 we did a small shipment of hardware to support IT graduates to better their chances in securing a job. We also have been able to help them secure jobs and we currently monitoring their progress through mentorship and coaching programs.

For the year 2025 we hope to execute at least 3 of these projects, depending of the donation the organization will receive:

- Renovating of the schools and building IT labs in Akyease village
- Donation hardware and furniture to the village Dompouse. We believe in education and have donated these hardware and furniture to build up the schools in Dompouse.
- New donors have seen the good work we are doing and we welcomed them to partner with us for the IT projects.
- Micro finance project will get more attention than it did. We will need more donors for that project.
- We have welcomed new volunteers. We cater for some of their expenses
- We are preparing for our IT projects in 2025 and are looking forward for new donors to join us and help impact the lives of young people and women in Ghana
- We are hoping to register the NGO in Ghana next year or the following year. This depends also on the donation we will receive. Due to that we were also not able to open a bank account for the organization Adom Give and Gain. It is required to be an organization before you can open a bank account number for the organization. Due to that, the board agreed that Benedicta Nkansah (who was the only board member without corona) will open a joint account to put all the donation money in the account for the time being. The money will be used for the projects in Ghana. The board will look for the right and healthy moments to register the organization in Ghana and transfer the remaining donated money to the bank account of the organization Adom Give and Gain.
