

Theme BELIEVE IT 2025

Project plan

For the year 2025 we hope to execute at least 3 of these projects, depending of the donation the organization will receive:

- Renovating of the schools and building IT labs in Akyease village
- Donation hardware and furniture to the village Dompouse. We believe in education and have donated these hardware and furniture to build up the schools in Dompouse.
- New donors have seen the good work we are doing and we welcomed them to partner with us for the IT projects.
- Micro finance project will get more attention than it did. We will need more donors for that project.
- We have welcomed new volunteers. We cater for some of their expenses
- We are preparing for our IT projects in 2025 and are looking forward for new donors to join us and help impact the lives of young people and women in Ghana
- We are hoping to register the NGO in Ghana next year or the following year. This depends also on the donation we will receive. Due to that we were also not able to open a bank account for the organization Adom Give and Gain. It is required to be an organization before you can open a bank account number for the organization. Due to that, the board agreed that Benedicta Nkansah (who was the only board member without corona) will open a joint account to put all the donation money in the account for the time being. The money will be used for the projects in Ghana. The board will look for the right and healthy moments to register the organization in Ghana and transfer the remaining donated money to the bank account of the organization Adom Give and Gain.

Objectives for the project

- Empowering young Ghanaians to believe in themselves to be able to achieve everything in life. Your situation in life shouldn't limit your believe. That is what the project Believe IT is all about.
- Help them to reach their goals in business in securing a job
- Bringing hope and encouragement to women as we support their business through micro finance projects.
- Creating prospective for the young Ghanaians to exile in their areas of gifting
- Creating a network where young talented Ghanaians can get the chance to show their talents
- Creating a platform for young talented Ghanaians to show their talents.

Project items needed

- Donation
 - o Clothing
 - o Furniture
 - o Hardware
 - o Finances
 - o Trainers
 - o Property for the IT trainings

Social Media

Funding

- Sponsors
- Grands maybe from Holland

Financial plan 2025
